kristinarado8@gmail.com

Summary

Experienced Software Engineer with 6+ years in web development, specializing in React.js, TypeScript, and modern front-end technologies. Skilled in building scalable, high-performance web applications, integrating APIs, and implementing UI/UX best practices. Strong problem-solving, leadership, and collaboration skills, with a commitment to leveraging the latest technologies to deliver seamless digital experiences.

Languages: TypeScript | JavaScript | HTML5 | CSS3 | SCSS

Frameworks & Libraries: React.js | Next.js | Tailwind CSS | Bootstrap | WordPress

UI/UX & Design Tools: Figma | Adobe Photoshop | Canva | Logo Design | Responsive Design

Performance & Optimization: SEO | Web Performance | Page Speed Optimization | Vercel | Netlify

Methodologies & Practices: Agile | UI/UX Principles | Client-Focused Development | Cross-Functional Collaboration

Experience

Kosmoy / Frontend Developer

Jun 2025 - Present, Remote

- * Refactored and scaled a React / Next.js codebase by introducing reusable UI and workflow abstractions, reducing duplication and improving maintainability.
- * Built complex, multi-step workflow pages with a modular architecture focused on reusability and composability.
- * Implemented type-safe form handling and validation using React Hook Form and Zod, improving reliability and consistency of frontend state.
- * Led end-to-end feature ownership and collaborated with FastAPI backend engineers on API integration, debugging, and production issue resolution.
- * Enhanced application architecture and UI/UX quality by applying Next.js best practices and improving core user flows.

LINDIT / Frontend Developer

Jan 2023 - Present, Remote

- * Built and maintained frontend-heavy full-stack applications using React and Next.js
- * Designed and developed UI/UX solutions for web applications

- * Defined and implemented business logic based on project requirements
- * Contributed to development of high-load entertainment and gambling platforms with high user traffic
- * Worked with scalable frontend architectures and performance-focused implementations
- * Worked directly with clients to gather requirements and translate business needs into technical solutions
- * Collaborated with teams to manage client communication and coordinate project delivery
- * Assisted in task planning, workload distribution, and internal team support

Sparklab / Lead Web Developer

Jul 2022 - Mar 2023 Tirana/Italy

- * Worked directly with clients to gather requirements and translate business needs into technical solutions
- * Defined and implemented business logic based on project requirements
- * Designed and developed UI/UX solutions for web applications
- * Built and maintained frontend applications with full-stack capabilities
- * Collaborated with the team to manage client communication and project coordination
- * Assisted in workload distribution and internal team support
- * Managed email infrastructure and hosting environments (VPS, cPanel, server setup and maintenance)
- * Supported deployment and technical operations across client projects

Titans Marketing / Wordpress Developer

Feb 2022 - Sep 2022, Germany

- * Led website projects from concept to delivery
- * Designed and developed custom WordPress websites
- * Worked directly with clients to gather requirements and present solutions
- * Translated business needs into functional and visually appealing websites
- * Managed website updates, performance, and maintenance
- * Collaborated with team members to ensure smooth project delivery

Alcoders / Wordpress Developer

Dec 2019 - Mar 2022, Tirana

- * Developed custom WordPress websites from concept to launch
- * Planned website structure, features, and user experience
- * Presented designs and progress directly to clients
- * Gathered requirements and translated them into functional solutions
- * Maintained and updated existing websites for performance and usability

Education

Polytechnic University of Tirana (UPT) / Bachelor

2013 - 2017

Mathematical engineering

Polytechnic University of Tirana (UPT) / Master

2018 - 2019

Computational and Applied Mathematics
